EXPERIENCE

Software Engineer – LancolaTech Limited.

December 2024 – Present

Worked collaboratively within a development team to design and build enterprise-level applications, including ERP, CMS, LMS, and CRM systems. Contributed to both front-end and back-end development using Angular, TypeScript, and Node.js, integrating RESTful APIs and implementing scalable system architectures. Actively participated in feature development, testing, and production deployment while collaborating with cross-functional teams to deliver reliable and user-focused business solutions.

Software Developer – Kristec Developers

October 2023 – October 2024 | Part Time

Built and maintained Kristec's website using React.js and Node.js, delivering a user-friendly and responsive platform. Developed back-end APIs and managed databases with MySQL for efficient data handling and seamless client experiences. Collaborated with cross-functional teams to align tech solutions with business goals, enhancing site functionality and service accessibility.

PROJECTS

Lancola Institute LMS

A Learning Management System designed for Lancola Innovation Institute to deliver online courses to students and provide corporate partners with structured learning resources for employee training and executive development.

Solby ERP

Enterprise resource planning platform designed to support B2C, B2B, and retail operations through integrated modules including POS, CRM, HR & payroll, inventory management, accounting, invoicing, and advanced analytics to streamline business processes and improve operational efficiency.

Solby Accounting

A financial management system designed to integrate with ERP workflows, providing tools for expense management, budgeting, ledger operations, asset tracking, invoicing, and analytical reporting to streamline accounting processes across business operations.

PayHero Devkit NPM Package

A lightweight Node.js SDK for PayHero APIs, enabling developers to initiate STK Push payments, poll transaction statuses, and check wallet balances with a focus on simplicity and webhook-free workflows.

EDUCATION

BSc in Information Technology

Kabarak University

Sept 2021– Dec 2026

ALX Software Engineering

ALX Africa

Mar 2025 - Jan 2026

CERTIFICATION

PLP Softerware Development

Certified by Power learn Project

Professional Foundation

Certified by ALX Africa

Postma Student Expert

Certified by Postman

CCNA Certified

Certified by Cisco

HCIA Datacom

Certified by Huawei

SKILLS

Proficient: NodeJs, ReactJs, Python, NestJs, NextJs Linux, Network Design, Fiber optic, TCP/IP, Cisco, Huawei, Mikrotik, Enterprise networks, Network implementation, Wireless networks

Soft Skills: Communication, Leadership, Problem solving, Team Player

VOLUNTEERING

Huawei Student Developer

June 2023 – June 2025

Google Developer Group Lead - Cybersecurity

November 2024 – October 2025

ACHIEVEMENTS

1st runners up in the Communications Authority, Huawei and Kenya Cybersecurity and Forensics Association bootcamp and hackathon series 2023.
